

About PACRI:

The Proyecto Access CSTEP Research Initiative (PACRI) is an intensive two semester research training activity with the objective to enhance research skills of minority/underrepresented students pursuing careers in STEM and license professions. Students will be paired with a faculty mentor, attend research workshops and field trips, and present their research topics at the CSTEP Statewide Conference and other research conferences and events.

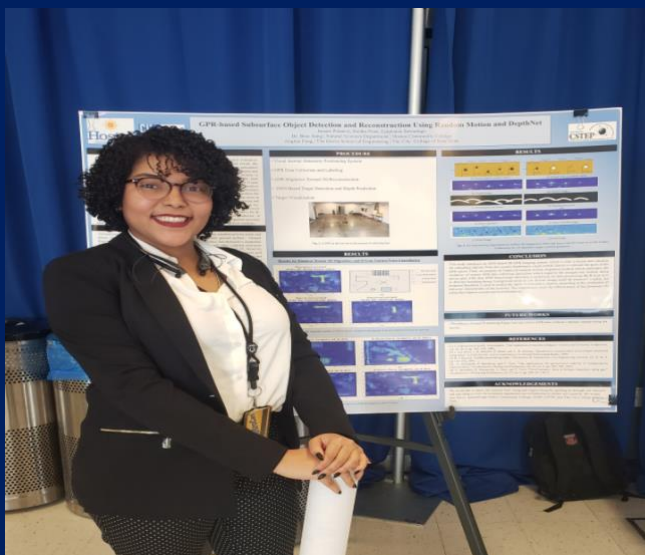

CSTEP Research Students will:

- Be paired with a Faculty Mentor
- Commit to a minimum of 10 research hours per week
- Attend research workshops and seminars
- Participate in research conferences and events

Requirements

- Must be enrolled in the CSTEP program
- Min GPA 2.7
- Full-Time student
- STEM major

Participants will receive \$1,000 stipend per semester
